

Is This Bundle Right For You?

Read this before purchasing

WHO THIS IS FOR

This bundle is built specifically for SAP MM and procurement consultants who want to understand the SAP AI and BTP landscape at architecture and concept level — without needing a development or coding background.

You will get the most value from this bundle if you:

- ✓ Have SAP MM, procurement, or S/4HANA functional experience
- ✓ Want to understand SAP AI Core, Datasphere, Joule, GenAI Hub, and Build Process Automation — how they connect to MM processes
- ✓ Are preparing for SAP AI or BTP architecture conversations with clients or in interviews
- ✓ Are studying for SAP certifications — BTP Solution Architect, Generative AI Developer, or SAP Signavio (C_SIGPM_2403)
- ✓ Want to transition from SAP MM into SAP AI architecture roles

WHO THIS IS NOT FOR

Be honest with yourself before purchasing — if what you need is not covered, this is not the right investment.

This bundle will NOT give you:

- ✗ Hands-on BTP system configuration or technical setup steps
- ✗ SAP AI Core deployment walkthroughs with system access
- ✗ Python, CAP, or Node.js coding exercises
- ✗ Live sessions, webinars, or 1-on-1 mentoring
- ✗ S/4HANA or BTP trial system credentials

WHAT LEVEL IS THIS CONTENT?

SAP BTP & AI TRAINING SERIES | NIKHIL BHOSALE | @SAPPROCUREMENTAI

Intelligent Procurement on SAP BTP

The Complete Architecture Training Bundle

Study Guide PDF + Full Slide Deck Library with Architecture Diagrams

CORE BUNDLE Rs 4,999	COMPLETE BUNDLE Rs 7,999
<ul style="list-style-type: none">✓ SAP BTP Foundation✓ Generative AI on SAP BTP✓ SAP AI Core✓ SAP Joule in Procurement✓ SAP Datasphere✓ AI Roadmap and 90-Day Plan✓ SAP Build Process Automation	<ul style="list-style-type: none">✓ Everything in Core Bundle, plus:✓ All Module PPTX Slide Decks with Architecture Diagrams✓ SAP Signavio Study Guide (9 Units, C_SIGPM_2403)✓ Signavio Hands-On Sessions Guide✓ Use Case Deep Dive: Supplier Recommendation Engine✓ Use Case Deep Dive: Price Anomaly Detection✓ Use Case Deep Dive: Signavio + BTP AI Closed Loop

What the Slide Deck Library Contains (Complete Bundle)

- ✓ Architecture flow diagrams — every BTP service connection visualised
- ✓ SAP table reference — EKKO, EKPO, EKBE, EKET, LFA1, EORD with AI use cases mapped
- ✓ BTP services reference — AI Core, Datasphere, GenAI Hub, Integration Suite, Event Mesh
- ✓ Use case architecture slides — Supplier Recommendation, Price Anomaly, 3-Way Match, RAG
- ✓ Signavio component reference — Process Intelligence, Manager, DMN, CJM, Governance
- ✓ Build PA procurement workflows — PR approval, 3-way match exceptions, supplier onboarding
- ✓ 7 decks covering all series topics — ready to use as study and reference material

This is not for you if:

- ✗ You need hands-on BTP system configuration or technical setup steps
- ✗ You are looking for coding exercises in Python, CAP, or Node.js
- ✗ You expect live sessions, webinars, or 1-on-1 mentoring

Content level: Concept and architecture

- ✓ Everything is concept and architecture level — no coding, no system access required
- ✓ Built specifically for SAP MM and procurement consultants transitioning into AI roles
- ✓ Covers the architecture and use cases you need for client conversations and interviews

Intelligent Procurement on SAP BTP

The Complete Architecture Training Bundle — 7 Modules | Concept & Architecture | No Code Required

WHAT'S INSIDE THIS BUNDLE

01

45 mins

SAP BTP Foundation

Why most organisations are building AI the wrong way on SAP — and the architectural principle that changes everything.

Full architecture diagrams, frameworks and insights — in the paid bundle [LOCKED]

02

60 mins

Generative AI on SAP BTP

The one question that determines whether your SAP AI project succeeds or wastes 6 months. Most teams get it wrong.

Full architecture diagrams, frameworks and insights — in the paid bundle [LOCKED]

03

60 mins

SAP AI Core

How a supplier recommendation engine actually works under the hood — the data, the model, and why most pilots never reach production.

Full architecture diagrams, frameworks and insights — in the paid bundle [LOCKED]

04

60 mins

SAP Joule in Procurement

What happens when buyers stop navigating SAP screens and start asking questions instead. The shift is bigger than it sounds.

Full architecture diagrams, frameworks and insights — in the paid bundle [LOCKED]

05

45 mins

SAP Datasphere

The silent reason 80% of SAP AI projects produce confident wrong answers — and how to fix it before you build anything.

Full architecture diagrams, frameworks and insights — in the paid bundle [LOCKED]

06

30 mins

Building Your AI Roadmap

A 90-day plan that gets one procurement AI use case live. Not theory — a framework that accounts for the real obstacles.

Full architecture diagrams, frameworks and insights — in the paid bundle [LOCKED]

07

60 mins

SAP Build Process Automation

How procurement approval workflows, 3-way match exceptions, and supplier onboarding are automated on BTP — intelligently, without touching standard MM config.

Full architecture diagrams, frameworks and insights — in the paid bundle [LOCKED]
