

Is This Bundle Right For You?

Read this before purchasing

WHO THIS IS FOR

This bundle is built specifically for SAP SD consultants who want to understand the SAP AI and BTP landscape at architecture and concept level — without needing a development or coding background.

You will get the most value from this bundle if you:

- ✓ Have SAP SD, order-to-cash, or S/4HANA Sales functional experience
- ✓ Want to understand SAP AI Core, Datasphere, Joule, and GenAI Hub — how they connect to SD processes
- ✓ Are preparing for SAP AI or BTP architecture conversations with clients or in interviews
- ✓ Are studying for SAP certifications — BTP Solution Architect or Generative AI Developer
- ✓ Want to transition from SAP SD into SAP AI architecture roles

WHO THIS IS NOT FOR

Be honest with yourself before purchasing — if what you need is not covered, this is not the right investment.

This bundle will NOT give you:

- ✗ Hands-on BTP system configuration or technical setup steps
- ✗ SAP AI Core deployment walkthroughs with system access
- ✗ Python, CAP, or Node.js coding exercises
- ✗ Live sessions, webinars, or 1-on-1 mentoring
- ✗ S/4HANA or BTP trial system credentials

WHAT LEVEL IS THIS CONTENT?

Intelligent Sales on SAP BTP

The Complete Architecture Training Bundle — SAP SD Edition
Study Guide PDF + Full Slide Deck Library with Architecture Diagrams

CORE BUNDLE Rs 4,999	COMPLETE BUNDLE Rs 7,999

Intelligent Sales on SAP BTP

The Complete Architecture Training Bundle — SAP SD Edition — 7 Modules | Concept & Architecture | No Code Required

WHAT'S INSIDE THIS BUNDLE

01

45 mins

SAP BTP Foundation for SD

Why most SD teams are extending SAP in a way that will block their AI roadmap — and the Clean Core principle that changes the architecture conversation.

Full architecture diagrams, frameworks and insights — in the paid bundle [LOCKED]

02

60 mins

Generative AI on SAP BTP

The question that separates a sales AI project that changes buyer behaviour from one that gets ignored. Most teams never ask it.

Full architecture diagrams, frameworks and insights — in the paid bundle [LOCKED]

03

60 mins

SAP AI Core — From Sales Data to Intelligence

How a revenue leakage detection model actually works under the hood — the data, the scoring logic, and why most commercial teams never see the output.

Full architecture diagrams, frameworks and insights — in the paid bundle [LOCKED]

04

60 mins

SAP Build Process Automation for Sales

What happens when sales teams stop navigating order screens and start asking questions instead. The productivity shift is larger than it appears.

Full architecture diagrams, frameworks and insights — in the paid bundle [LOCKED]

05

45 mins

SAP Datasphere for Sales

The silent reason sales AI projects produce recommendations nobody trusts — and how to fix the data foundation before the model is trained.

Full architecture diagrams, frameworks and insights — in the paid bundle [LOCKED]

06

30 mins

Building Your Sales AI Roadmap

A 90-day plan that gets one sales AI use case live. Not theory — a framework that accounts for the real obstacles in SD landscapes.

Full architecture diagrams, frameworks and insights — in the paid bundle [LOCKED]

07

NEW

SAP Joule in Sales

What happens when sales teams stop navigating order screens and start asking questions instead. The productivity shift is larger than it appears.

Full architecture diagrams, frameworks and insights — in the paid bundle [LOCKED]
